M-35 Rod Hook

Description: The M-35 rod hook has a 35 ton rated capacity. The locking mechanism is operated by means of a one-hand grip at the hook's center of balance. This allows the operator to steady the hook, open the locking arm and engage or remove the bail in one smooth, continuous operation. It is made out of high-strength steel that has been properly machined, heat treated, and tested to ensure long, trouble-free service.

M-35 ROD HOOK SPECIFICATIONS	
Load Rating	35 Tons
Weight	88 lbs.
Overall Length	39"
Net Length	34 1/4"
Spring Travel	2 1/2"
Diameter Bail Opening	4 1/4"
Hook Opening	2 1/4"
